- Led QA for native Android/iOS app releases across multiple countries.
- Managed app submissions and releases on the App Store and Play Store.
- Improved QA processes, cross-team collaboration, and release readiness.
- Worked closely with dev and localization teams to ensure quality and compliance

SUMMARY

Experienced Test Automation Engineer skilled in web and mobile automation using Selenium, Cypress, Playwright, and Detox. Proficient in API testing (Postman, Rest Assured), custom framework development, and enhancing QA processes. Strong background in security/performance testing, Agile practices, and CI/CD integration, with domain exposure in banking, e-commerce, healthcare, telecom, and more.

Currently upskilling in Data Science and AI testing using Python. Practical knowledge of ML models (logistic regression, decision trees, random forest, XGBoost), NLP (Hugging Face), and evaluation techniques (ROC-AUC, confusion matrix). Comfortable with data analysis and visualization using Pandas, NumPy, Seaborn, and Matplotlib.

SKILLS

Test Automation (including Selenium, Cypress, Playwright, Detox)

API Testing (Postman, REST APIs, Rest Assured)

Programming Languages (Java, JavaScript, Python, TypeScript)

CI/CD Integration

AI and ML Testing

Test Framework Development

Test Management & Leadership

Performance and Security Testing

EXPERIENCE

Senior QA Automation Engineer

Urban Sports Club GmbH

02/2019 - 04/2021 Berlin

- Built automation infrastructure from scratch
- Integrated API tests into CI pipelines
